

Corrected Census 2020 Total Population, Household Population, Group Quarters Population, Total Housing Units, Occupied Housing Units, and Vacant Housing Unit Counts for Governmental Units

Note: Corrected counts are a result of the Count Question Resolution (CQR) Program.

Federal Register/Vol. 86, No. 207/Friday, October 29, 2021 (Introduction): No new census information products will be created by the 2020 Census CQR and no revisions will be made to 2020 Census information products, such as the apportionment counts delivered to the President for apportionment or the 2020 Census Public Law 94-171 Redistricting Data Files and Geographic Products.

The state-level census counts will always be presented, regardless of whether or not there is a CQR change to the counts at the state level. Below the state level, the tables will present census counts only for those governmental units in which a CQR change occurred, with one exception—when a CQR change occurs in a place that is in more than one county, the table will display census counts for all the county parts, regardless of whether or not each part had a CQR change. In this table, the number of governmental units counted as affected includes any change to the totals for the state, counties, functioning county subdivisions, and incorporated places.

Last updated: 12/09/2022

Number of governmental units affected by CQR to date = 1
